FINAL NOTICE- MAY 15, 2017
WATER METER REPLACEMENT PROJECT
DISRUPTION OF WATER SERVICE NOTICE

Dear SCMA Water Customer:

The Schuylkill County Municipal Authority (SCMA) is rapidly moving forward to completing our MANDATORY Water Meter Replacement Project. SCMA has previously provided you with notice informing you of this Project, which has been underway since August 2016. Our Installer, **LENEGAN Plumbing & Heating** has not heard back from you in regards to scheduling your meter replacement, and you have failed to meet the deadline requirements. Many of you have received letters, doorhangers and phone calls in an effort to allow you to set up an appointment for your new meter installation. We understand how difficult it is to find the time to be available for this new water meter installation. However, it only takes approximately 15-20 minutes to change the meter. Should you fail to contact **LENEGAN**, or answer their attempts to set your appointment - **You may lose your water service until an appointment is scheduled.** Please be advised that water service, without the proper equipment, will risk termination of service. If you have a disruption of water service, you will need to schedule an appointment immediately with SCMA. In that case, the new meter installation, and water reconnection, will only be completed during normal business hours. The water meter, at your home or business, **must** be changed in order to be compatible with the drive-by meter reading system currently in use. **Again, there is no cost to you for this work.** LENEGAN Plumbing & Heating will do their best to accommodate your schedule.

It is very important that you contact LENEGAN Plumbing & Heating, at the telephone number or web address listed below to set up an appointment for the meter replacement work **AS SOON AS POSSIBLE**. **Access to the water meter in your residence or business is required.** Appointments are available Monday through Friday from 9 AM to 6 PM and Saturday from 8 AM to 4 PM. The meter installer will have an identification badge that is approved by the SCMA. Please be sure that your water meter is accessible prior to the scheduled installation date and time. If you are a building owner, please notify your occupants of this meter replacement and water service interruption. This is a **mandatory system wide meter replacement project** and every residential and small business SCMA customer will be required to have their water meter replaced. We thank you in advance for your cooperation with the implementation of this program.
